Final a tax return

Sources: NATION TAX AGENCY

The income tax return is a process where a taxpayer calculates the amount of income earned during a year from January 1 to December 31 and the amount of income tax, and adjusts the excess or deficiency if there is tax withheld at source or estimated tax prepayment.

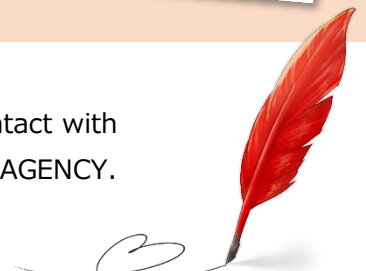

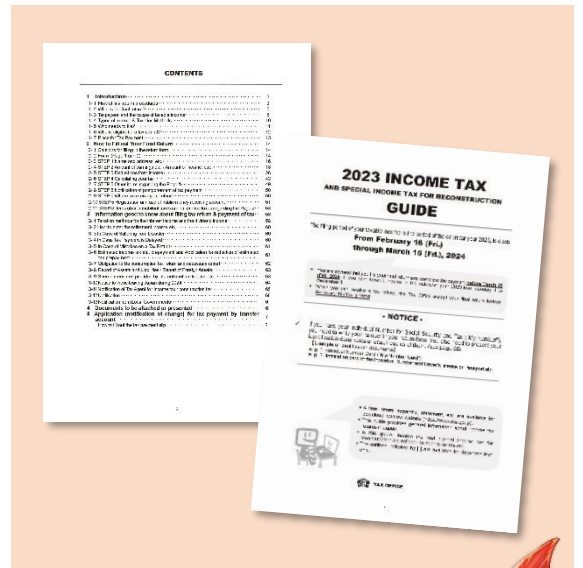

In principle, people are required to file the final tax return from February 16 and March 15 of the following year if the total income for the year exceeds the total amount of deduction from income and if the tax amount on the excess amount is larger than the sum of credit for dividends and special credit for housing loans applied at the year-end adjustment.

From February 16 to March 15

For more information on final tax returns, please check the website below or contact with TAKASAKI REGIONAL TAXATION BUREAU (Tel: 027-322-4711) of NATION TAX AGENCY.
